

Routine for M.Sc Semester III (Regular and Supplementary) Examinations in Microbiology, 2021

A. Dates of Semester III theoretical examinations (both Regular and Supplementary):

January 17, 2022:	CBCC A (Time: 12:00 to 2:00 pm)
January 19, 2022:	CBCC B (Time: 12:00 to 2:00 pm)
January 22, 2022:	Micro C32 (Proteomics and Genomics) Time: 12:00 to 2:00 pm
January 25, 2022:	Micro C31 (Fermentation and Bioprocess Engineering) Time: 11:00 am to 12:00 pm Micro C33 (Regulation of Eukaryotic Gene Expression) Time: 2:00 pm to 4:00 pm

Instructions:

Both theoretical and practical examinations will be conducted through online mode. For theoretical examination, question paper will be sent directly to the students 15 minutes before the scheduled start time of each examination for downloading the question paper and an extra 30 minutes will be given after the examination for uploading the answer sheets. The examinations will be held on the Google Classroom platform and students will have to submit their answer scripts there only. No answer scripts will be accepted beyond the scheduled close of examination time.

If more than one answer script is found to contain identical answers or contain answers plagiarized from sources in the internet, all such answer scripts will be summarily cancelled.

The details of the practical examinations will be decided by individual institutions and intimated to their respective students.
