

SAVE A LIFE ! YOU CAN DO IT !
A Social Awareness Workshop
on
BYSTANDER CPR

Instructor: **DR. TAPAS MONDAL**
Pediatrics (Cardiology), McMaster University, Canada

Organizer: **IEEE Photonics Society Calcutta Chapter**

Date: **December 11, 2017**

Time: **3:00 PM**

Venue: M.N. SAHA AUDITORIUM, UCST, UNIVERSITY OF CALCUTTA
92 A.P.C. ROAD, KOLKATA-700009, INDIA

<p>With significant increase in cardiovascular disease, incidence of cardiac arrest is disturbingly rising worldwide.</p>	<p>Survival can be significantly improved by immediate Chest compressions.</p>
<p>Most cardiac arrests are unexpected and sudden.</p>	<p>This is to be done by the Bystanders.</p>
<p>BYSTANDER CPR IS THE KEY TO SUCCESS</p>	
<p>~90% of Cardiac arrests happen outside hospital(OHCA) though mostly witnessed.</p>	<p>Chest compressions only may be enough to start with.</p>
<p>Survival of OHCA is very low (<10%).</p>	<p>Ask for help for ongoing and advanced resuscitation</p>

Registration Fee (for training): Rs. 100.00

*As only a limited number of participants can be accommodated to take practical training, **Pre-Registration** is recommended for those willing to take the training.*

CPR BEGINS AT HOME !
