Topics

"Recent Advances in Mathematics and its Applications"
Objective

Mathematics plays a key role in the development of various branches of science as well as in the understanding of physical world problems. We would like to hold a one day seminar on February 21, 2019, on recent advances in Mathematics with a view to provide platform for interaction among each other. There will be invited lectures, paper reading sessions and interactive sessions. Young researchers will get opportunity to demonstrate their own works and have suggestions from experts.
