PRABHU JAGATBANDHU COLLEGE

Prabhu Jagatbandhu College, popularly known as Andul College, is situated on the bank of the river Saraswati. The college was established on 15th August 1964. The college has an attractive campus view with four buildings forming a rectangular structural pattern around a lush green ground surrounded by a concrete road. A computerized financial and admission system constitute best practices in administration. Seminars are organized regularly to broaden the perspective of students, even as group activities like excursions, foster team spirit and sharpen social skills. The college has been able to maintain its own identity and a good academic standard as reflected in teaching and University Examination results. The present UGC-NAAC-2014 score is (CGPA-2.82).

IT SERVICES CELL

The basic aim of this cell is to create awareness and spread the use of information and communication technologies, among the students/teachers/non-teaching staff so that these technologies can be used in the process of teaching/learning, or, in their day to day life. Apart from this, the cell provides a platform to interact and explore the ICT world namely, through activities like Software training, Organizing seminar/workshop/symposium etc. The cell has collaborated with IIT-Bombay to provide training to students through spoken-tutorial project sponsored by MHRD, Govt. of India.

National Level Workshop

on

Free and Open Source Software

1st – 11th August, 2016

Organized By

IT Services Cell

Prabhu Jagatbandhu College

In collaboration with

Spoken-tutorial project

IIT Bombay

Sponsored By

UGC

University Grants Commission

ABOUT THE WORKSHOP

Under the overarching vision of digital India, Govt. of India aims to make govt. services digitally accessible to citizens efficiently, transparently, with reliability, at affordable cost etc. For this the citizens must know how to access these services through different platforms of ICT. Faculty members are best placed to spread the knowledge of ICT. We have chosen Free and Open Source Software's (FOSS) as a platform because it will reduce the cost of ownership, reduce vendor lock in, increase freedom of choice of software usages etc. Faculty members trained in FOSS then can use it for their own research and teaching-learning related activities, helping themselves and also increasing the employability of the students.

TOPICS TO BE COVERED

1. Libre Office Suite Writer
2. Libre Office Suite Calc
3. Libre Office Suite Impress
4. GIMP
5. LaTeX 2e
6. GNU PLOT
