OBJECTIVE

Mathematics plays a key role in the development of various branches of science as well as in the understanding of physical world problems. We would like to hold a one-day seminar on 12th March, 2015, on recent developments in Mathematics with a view to giving researchers an opportunity to have interactions among themselves. There will be invited lectures, paper reading and interactive sessions. Young researchers will be given opportunity to demonstrate their own works and have suggestions from experts.

PARTICIPANTS

Other than the invited speakers and contributors of research papers, any student/teacher of mathematics may also participate in the seminar.
